Grammar,	Physiology and Hygiene,
Composition,	Civil Government,
Geography,	Didactics,
	Vocal Music.

The Course of Study and Training in these DEPARTMENTS will embrace the best methods of School Organization and School Management, and of Professional Instruction upon all the branches taught in the Common Schools of Kentucky.

While the course of study, in the main, will be purely professional, embracing the Science of Teaching and the Art of Teaching, it will be thorough and practical.

COURSE OF STUDY.**Junior Class.***First Term.*

Spelling, Reading, Written Arithmetic, Mental Arithmetic, Penmanship, Elocution.

Second Term.

Grammar and Composition, Geography, History of United States, Written Arithmetic, Mental Arithmetic, Laws of Health.

Senior Class.*First Term.*

Didactics, Arithmetic, Grammar and Composition, Elocution, Geography, Physiology and Hygiene.

Second Term.

Didactics, Arithmetic, Physiology and Hygiene, History, Civil Government, Manners and Morals.

NOTE 1. Constant attention will be given during the entire Course of Instruction in the Normal School, to the correct use of language in all recitations and conversations.

NOTE 2. Simple oral instruction to the whole school on the Laws of Health.

NOTE 3. Constant regard will be paid to the Manners and Morals of every pupil.

Lectures.

In addition to regular class work, students are required to attend a lecture every Friday afternoon,

given by some member of the Faculty, upon the Theory and Practice of Teaching, or on some other subject of general interest.

Lectures will also be given occasionally by prominent Educators in the service of the State.

Promotion and Graduation.

Written examinations in all the studies of the term will be held at the close of the same, and a general examination at the end of the session. The results of these examinations, averaged with the daily recitations, determine the standing of the student in scholarship.

At the end of each term, each student will be furnished with a report, showing the rank attained in scholarship and deportment.

A student loses grade if, at the close of any term, the standing in any study be less than seventy-five per cent.

A general average of eighty-five per cent., but in no branch less than seventy-five per cent., is required for graduation.

Students who may, from any cause, be absent for a part of a term, on returning, will be required to pass an examination in the studies pursued by the class during their absence.

Two years of successful study will be required for graduation in the regular Literary Course, but certificates of proficiency in the Science and Art of Teaching will be granted to meritorious students.

Text-books.

Each student must have a text-book upon each subject prescribed for the common schools of Kentucky.

Professional text-books will be furnished at cost.

Apparatus.

A Lunar Tellurian, excellent wall maps and other school furnishings of value, have been supplied by the State. Additions will be made as required.

Library.

The foundation of a library has been secured, to which additions will be made from session to session.

Music.

For the ensuing scholastic year, a course of vocal music will be provided for students in all grades. Instrumental music will be taught as a private study at reasonable rates. No charges for use of instrument.

Literary Society.

Students are expected to attach themselves to the "Normal Literary Society," in which exercises are conducted by themselves under the general supervision and direction of the Faculty.

Religious.

The daily exercises begin with reading a passage from the Bible, singing and prayer, at which time the entire school is convened in the Chapel.

Every student is expected to attend some church in the city on Sabbath morning.

Every thing of a sectarian character is carefully excluded from the religious exercises of the State Normal School.

Boarding.

Boarding in the best private families can be obtained for \$8 per month, including fuel and lights. Rooms without boarding, fuel and lights, from \$3 unfurnished, to \$4.50 furnished, per month.

Boarding for several young ladies will be furnished in the families of Professors Jackson and Monroe.

Tuition.

Tuition free to all colored residents of Kentucky who fulfill the required conditions. To the colored non-residents of Kentucky, the rate of *Tuition* will be two dollars per month.

Government.

The government of the school is positive in prohibiting all immoral practices, as well as actions leading thereto, and in enforcing a uniform regard for good order, studious habits, and careful observance of the prescribed routine of duty.

As that discipline is the best which finds its support in the enlightened judgment and high moral sense of the governed, no means will be neglected which appeal to the principle and self-respect of the student, and thereby promote self-government.

General Rules and Regulations.

A violation of one or more of these rules, made for the general good of the school and for the special care and protection of the student, will subject the offender to reprimand, suspension or expulsion.

Requirements.

1. Proper observance of the Sabbath.
2. Maintenance of good order in class-rooms and in dormitories.
3. Each student, in order to retain membership in the school, must obtain a certificate of good deportment and proficiency at the end of the scholastic year.

Prohibitions.

4. Association of the opposite sexes.
5. All improper behavior and immoral practices.
6. Absence from the school premises without permission.
7. Association with any person of a suspicious or an immoral character.

Industrial Department.

In virtue of the Act of Congress of July 30th, 1890, for the benefit of Colleges of Agriculture and the Mechanic Arts, the "State Normal School for Colored Persons" has been allowed out of the annual amount appropriated Kentucky, 14.5 per cent., on the basis of the percentage of colored pupil-children of the State according to the Census Bureau. For the financial year 1890-'91, the amount is \$2,175. This annual allowance serves to maintain the following special Departments, which will be in full operation the coming session :

1. Agriculture and Horticulture.
2. Mechanics and Manual Training.
3. Domestic Economy.

The special object under this organization, is to combine Labor with Learning in such way as to afford every pupil a good, practical English education, with effective training in the Laboratory and the Field or in the Workshop.

This union will be so maintained in this Institution as to enable its pupils to train others practically

in all that they acquire under its fostering care. This is a *Training School in all its Departments*, for its purpose is to qualify its pupils as practical Teachers "for teaching in the Colored Public Schools of Kentucky," and, consequently, to prepare them, as occasion may demand, for ready and reliable employment in the Field or in the Workshop, thus fitting them as true factors in the cause of their race and in the service of the Commonwealth.

None other than regular students of the Literary Department or graduates of the Normal School, will be admitted to any of the privileges of the Industrial Department.

I. Department of Agriculture and Horticulture.

PROFESSOR CHAPMAN C. MONROE, A. M.

Chemistry, Botany, Geology, Natural History, Zoölogy.

COURSE OF STUDY.**CHEMISTRY.***FIRST YEAR—First Term.*

Chemistry—Inorganic, Remsen, to page 176. Time: 20 weeks.

Second Term.

Chemistry—Organic, Remsen, completed. Time: 20 weeks.

SECOND YEAR—First Term.

Chemistry—Qualitative Analysis, Noyes, completed. Time: 20 weeks.

Second Term.

Chemistry—Quantitative Analysis, Cairns. Time: 10 weeks.

Agricultural Chemical Analysis, Frankland. Time: 10 weeks.

BOTANY.*FIRST YEAR—First Term.*

Outlines of structural botany and the rudiments of how plants grow and how plants feed. Time: 20 weeks. Gray.

Second Term.

Systematic botany and the general classification of plants. Time: 20 weeks. Gray.

SECOND YEAR.

Laboratory practice in plant analysis, and field study of local flora.

GEOLOGY.**FIRST YEAR.**

Daily recitations from text-books.

SECOND YEAR.

Lectures, and the study of the geology of the region around Frankfort and the Kentucky river.

NATURAL HISTORY.*FIRST YEAR.*

Daily recitations from standard text-books as a basis for the work required; but works of reference and standard treatises are provided in a special library for this department.

SECOND YEAR.

Laboratory practice and lectures.

AGRICULTURE AND HORTICULTURE.

Instruction in these branches will continue throughout the course. Especial attention will be given to the planting of crops, the use of manures and composts—how prepared and kept—the selection of stock, the keeping of farm accounts, drainage, etc. In the laboratory, students will be required to make analyses of the soil, air and water, and exhibit their relation to plant life. Attention will be given to the propagation and management of vegetable plants, and also of the care and arrangement of flowers.

Department of Mechanics and Manual Training.

PROFESSOR MOSES A. DAVIS.

COURSE OF STUDY.*FIRST YEAR—First Term.*

Care and use of tools. Work with plane, saw, chisel, etc. Different kinds of joints, mortise and tenon, mitre, etc. Mechanical drawing.

Second Term.

Dovetailing, cabinet work-boxes, tables, desks, etc. Use of lathe and scroll saw. Mechanical drawing.

SECOND YEAR—First Term.

Work with lathe, caliper work to different lengths and diameters, balusters, table legs, etc. Chuck work, hollow and spherical turning—corner blocks, rosettes, etc. Scroll saw work—brackets, book-shelves, etc. Mechanical drawing.

Second Term.

Examples in miniature house building, and in bridge-building. Framing, roof-trusses, pattern making. Architectural designing, house planning. Estimates and specifications.

Department of Domestic Economy

MRS. IDA JOYCE JACKSON.

COURSE OF STUDY.*FIRST YEAR—First Term.*

Plain Sewing. Measuring. Draughting.

Second Term.

Cutting. Fitting. Darning.

SECOND YEAR—First Term.

Dressmaking. Crocheting.

Second Term.

Dressmaking. Tailoring. Fancy Work. Millinery.

“State Normal School for Colored Persons.”

The Fourth Session of this institution, on Normal Hill, in the immediate vicinity of Frankfort, Kentucky, will open for the admission of Pupils of both sexes, on Wednesday, September 9th, 1891, and close on Thursday, June 2d, 1892, but pupils will be received at any time during the session, and for any length of time not less than two months.

“The object” of this State Normal School, established and maintained by Act of the General Assembly, “shall be the preparation of teachers for teaching in the Colored Public Schools of Kentucky.”

Admission of Pupils: “Any pupil to gain admis-

sion to the privileges of Instruction in the said Normal School shall be at least sixteen years of age, possess good health, give satisfactory evidence of good moral character, and sign a written pledge, to be filed with the Principal, that said applicant will, so far as practical, teach in the Colored Common Schools of Kentucky a period equal to twice the time spent as a pupil in said Normal School, together with such other conditions as the Board may, from time to time, impose. Should any pupil fail to teach the prescribed time in the Colored Common Schools of the State, he or she shall be liable for such tuition as the Board may determine." In addition to the foregoing requirements, every applicant for admission to this school must hold a Teacher's Certificate, a Certificate of Graduation from a Common School, or must pass an examination, by the Faculty, on the subjects of instruction prescribed for the Common Schools, attaining an average of not less than sixty-five per cent., but on no subject less than fifty per cent.

As the constant office of this State Normal School is to prepare teachers for teaching in the Colored Public Schools of Kentucky, special instruction will be given all promising applicants who may have failed on the first examination, to enter the Normal School Proper.

For any other information concerning the School, address at Frankfort, the Principal, J. H. Jackson, to whom applicants for admission will promptly report.

CALENDAR, 1891-'92.

First Term begins Wednesday, September 9th, 1891.
First Term closes Friday, January 15th, 1892.

Second Term begins Monday, January 18th, 1892.

Second Term closes Thursday, June 2d, 1892.

Holidays—New Year's Day, Washington's Birthday, the 30th day of May, the 4th Day of July, Days of Fasting or Thanksgiving, Christmas Day.

The course of study of the State Normal School is so arranged that students may complete all the branches taught in the common schools of the State in the Preparatory Department and First Year Normal.

The design of the course of study in the Normal Department is to prepare our students to obtain State certificates and State diplomas ; and also to give them industrial training that will better prepare them to discharge intelligently the duties and responsibilities of citizenship.

LECTURES.

In addition to regular class work, students are required to attend a lecture every Friday afternoon, given by some member of the Faculty, upon the Theory and Practice of Teaching, or on some other subject of general interest.

Lectures will also be given occasionally by prominent educators in the service of the State. Artistic painting will be taught at reasonable rates.

	Second Term.	Pedagogy.	Review of Common School Branches.	Chemistry.	Geometry.	American Literature.	Architectural Designing. House Planning Estimates and Specifications.			Practice of Agriculture.

entire Course of Instruction in the Normal School, to the correct use of language in all recitations and conversations.

NOTE 2. Simple oral instruction to the whole school on the Laws of Health.

NOTE 3. Constant regard will be paid to the Manners and Morals of every pupil.

PROMOTION AND GRADUATION.

Written examinations in all the studies of the term will be held at the close of the same, and a general examination at the end of the session. The results of these examinations, averaged with the daily recitations, determine the standing of the student in scholarship.

At the end of each term, each student will be furnished with a report, showing the rank attained in scholarship and deportment.

A student loses grade if, at the close of any term, the standing in any study be less than seventy-five per cent.

A general average of eighty-five per cent., but in no branch less than seventy-five per cent., is required for graduation.

Students who may, from any cause, be absent for a part of a term, on returning, will be required to pass an examination in the studies pursued by the class during their absence.

Three years of successful study will be required for

graduation in the regular Normal Department, but certificates of proficiency in the Science and Art of Teaching will be granted to meritorious students.

TEXT-BOOKS.

Each student must have a text-book upon each subject prescribed for the common schools of Kentucky. Professional text-books will be furnished at cost.

APPARATUS.

A Lunar Tellurian, excellent wall maps, and other school furnishings of value, have been supplied by the State. Additions will be made as required.

LIBRARY.

One of the best means of securing a broad and liberal culture among students, is to have pupils read other books than the text-books. With this end in view, the foundation of a library has been secured, to which we shall ask our friends to contribute books or funds from session to session. Each student, upon matriculation, is expected to contribute fifty cents as a library fund.

MUSIC.

For the ensuing scholastic year, a course of vocal music will be provided for students in all grades. Instrumental music will be taught as a private study at reasonable rates. No charges for use of organ. Use of private piano one dollar per month.

LITERARY SOCIETIES.

Students are expected to attach themselves either to the "Atheneum or Douglass Literary Society," in which exercises are conducted by themselves under the general supervision and direction of the Faculty.

RELIGIOUS.

The daily exercises begin with reading a passage from the Bible, singing or prayer.

Every student is expected to attend some church in the city on Sabbath morning.

Every thing of a sectarian character is carefully excluded from the religious exercises of the State Normal School.

The Normal School embraces the following departments: Preparatory, and Normal with its several courses.

PREPARATORY DEPARTMENT.

Course of Study.

PROFS. J. H. JACKSON, C. C. MONROE AND WM. A. CREDITT.

First Term.

Written Arithmetic, Grammar, Composition, Mental Arithmetic, Reading, History United States, Spelling and Penmanship.

Second Term.

Written Arithmetic, Grammar, Composition, Geography, History of United States and Spelling.

Special attention will be given to the Preparatory Department, and to the completion of the Common School branches in the First Year Normal; since it is the policy of the school not to permit our students to pursue the higher branches until they have thoroughly mastered the subjects which they are required to teach in the Common Schools of the State.

So important do we regard a thorough knowledge of the Common School branches, and the theory and practice of teaching the same, that there will be given a didactic review of them in the Senior Year.

BOARDING.

Boarding in the best private families can be obtained for \$8 per month, including fuel and lights. Rooms without boarding, fuel and lights, from \$3 unfurnished, to \$4.50 furnished, per month.

Boarding for several young ladies will be furnished in the families of Professors Jackson and Monroe.

During the coming scholastic year, it is the expectation of the Trustees and the Faculty to have a dormitory erected upon the grounds, sufficient, in size, to accommodate at least sixty young ladies.

TUITION.

Tuition free to all colored residents of Kentucky who fulfill the required conditions. To the colored non-residents of Kentucky, the rate of Tuition will be two dollars per month.

GOVERNMENT.

The government of the school is positive in prohibiting all immoral practices, as well as actions leading thereto, and in enforcing a uniform regard for good order, studious habits, and careful observance of the prescribed routine of duty.

As that discipline is the best which finds its support in the enlightened judgment and high moral sense of the governed, no means will be neglected which appeal to the principle and self-respect of the student, and thereby promote self-government.

GENERAL RULES AND REGULATIONS.

Requirements.

1. Proper observance of the Sabbath.
2. Maintenance of good order in class rooms and in dormitories.
3. Each student, in order to retain membership in the school, must obtain a certificate of good deportment and proficiency at the end of the scholastic year.

Prohibitions.

4. Association of the opposite sexes.
5. All improper behavior and immoral practices.
6. Absence from the school premises without permission.
7. Association with any person of a suspicious or an immoral character.

A violation of one or more of these rules, made for the general good of the school and for the special care and protection of the student, will subject the offender to reprimand, suspension or expulsion.

INDUSTRIAL TRAINING.

By virtue of the Act of Congress of July 30th, 1890, for the benefit of Colleges of Agriculture and the Mechanic Arts, the "State Normal School for Colored Persons" has been allowed out of the annual amount appropriated Kentucky, 14.5 per cent., on the basis of the percentage of colored pupil children of the State according to the Census Bureau. For the financial year 1890-'91, the amount is \$2,175. This annual allowance serves to maintain the following special Departments, which will be in full operation the coming session :

1. Agriculture and Horticulture.
2. Mechanics and Manual Training.
3. Domestic Economy.

The special object under this organization, is to combine Labor with Learning in such way as to afford every pupil a good, practical English education, with effective training in the Laboratory and the field or in the Workshop.

This union will be so maintained in this Institution as to enable its pupils to train others practically in all that they acquire under its fostering care. This is a *Training School in all its Departments*, for its

purpose is to qualify its pupils as practical Teachers "for teaching in the Colored Public Schools of Kentucky," and, consequently, to prepare them, as occasion may demand, for ready and reliable employment in the field or in the Workshop, thus fitting them as true factors in the cause of their race and in the service of the Commonwealth.

None other than regular students of the Literary Department or graduates of the Normal School will be admitted to any of the privileges of the Industrial Department.

COURSE OF AGRICULTURE AND HORTICULTURE.

PROFESSOR CHAPMAN C. MONROE, A. M.

"Learning and Labor."

Physics, Chemistry, Botany, Geology, Zoölogy Agriculture and Horticulture.

Course of Study.

PHYSICS.

The course of Physics extends through a period of two years, and embraces the kinds of work, following: 1. Recitation, in which a text-book is used as a guide. 2. Experiments in the physical laboratory, in which the student uses the instruments in testing the principles taught. 3. Illustrated experiments once each week, in which the more costly apparatus is used before the whole class, and which is more effective when prepared for an audience.

CATALOGUE OF THE

CHEMISTRY.

FIRST YEAR—*First Term.*

Inorganic Chemistry, Remsen.

Second Term.

Organic Chemistry, Remsen.

SECOND YEAR—*First Term.*

Qualitative Chemical Analysis, Noyes.

Second Term.

Quantitative Chemical Analysis, Cairns; and Agricultural Chemical Analysis, Frankland.

This course aims to impart such knowledge of chemistry as will enable the student to apply the principles of the science to the related arts, and as will fit him for the study of Agricultural Science.

BOTANY.

Course extends through one year.

First Term.

Systematic and Structural Botany by recitations; illustrated lectures and laboratory work upon fresh, dried and alcoholic specimens.

Second Term.

The study of the general morphology of plants, including vegetable anatomy and histology, with practical laboratory work, with the microscope as the basis of instruction.

GEOLOGY.

Course extends through one year.

First Term.

The study of the mineral composition of rocks, and the changes produced in their composition by the action of underground waters, etc.

COLORED NORMAL SCHOOL.

Analyses covering most of the varieties of crystalline and sedimentary rocks. A rapid review of the qualities and distribution of those substances found most useful in the arts, and the conditions which have produced them.

Second Term.

A study of the sub-divisions of Geologic time as laid down in Dana's Manual, with physical and organic changes which characterize them, and the distribution of the rocks laid down during each period.

ZOOLOGY.

Course extends through one year.

SENIOR YEAR—*First Term.*

1. Methods of Zoölogical research and study. 2. Comparative dissections, descriptions, drawings and microscopic preparation of types of the greater groups.

Second Term.

1. Lectures on the comparative physiology of selected forms. 2. Studies of the zoölogical classifications, commonly introduced by analytical synopses. 3. Lectures on general embryology with reference to the descent of animals. 4. Lectures on the history of zoölogical science and its final generalizations.

AGRICULTURE AND HORTICULTURE.

Course extends through two years. The instruction unites, as far as possible, theory and practice—theory explaining practice, and practice illustrating theory. The technical studies are taught mainly by lectures, with readings of standard agricultural books and periodicals, and frequent discussions, oral and written, of the principles taught. The following special features will receive attention:

FIRST YEAR—*First Term.*

Elements of Agriculture, Agricultural Architecture, Animal Husbandry.

Second Term.

Rural Economy, History of Agriculture, Rural Law.

SECOND YEAR—*First Term.*
Elements of Horticulture, Landscape Gardening.

Second Term.

Floriculture, Pomology and Forestry.

Especial attention will be given to the planting of crops, the use of manures and composts—how prepared and kept—the selection of stock, the keeping of farm accounts, drainage, etc. In the laboratory, students will be required to make analyses of the soil, air and water, and exhibit their relation to plant life.

COURSE OF MECHANICS AND MANUAL TRAINING.

Course of Study.

FIRST YEAR—*First Term.*

Care and use of tools. Work with plane, saw, chisel, square, bevel, etc. Exercises in mortising, turning, splicing, dove-tailing, chamfering and other work. Mechanical drawing.

Second Term.

Exercises in the construction of cabinet work, drawers, boxes, tables, etc. Mechanical drawing.

SECOND YEAR—*First Term.*

Lectures on the properties of wood, shrinkage, warping, etc. History and use of lathe and its attachments. Exercises in turning and scroll sawing. Mechanical drawing.

Second Term.

Exercises in the construction of miniature house building and in bridge building. Mechanical drawing.

THIRD YEAR—*First Term.*

Lectures on wood-working machines, belts and pulleys. Study of the arrangement of machines in a work-shop. Study and practice of how to run the gasoline engine. Mechanical drawing.

Second Term.

Architectural designing. House planning. Estimates and specifications.

COURSE OF DOMESTIC ECONOMY.

MRS. IDA JOYCE JACKSON.

FIRST YEAR—*First Term.*

Plain Sewing, Measuring, Draughting.

Second Term.

Cutting, Fitting, Darning.

JUNIOR YEAR—*First Term.*

Dressmaking, Crocheting.

Second Term.

Dressmaking, Tailoring, Fancy Work, Millinery.

"STATE NORMAL SCHOOL FOR COLORED PERSONS."

The Fifth Session of this institution, on Normal Hill, in the immediate vicinity of Frankfort, Kentucky, will open for the admission of Pupils of both sexes, on Wednesday, September 14th, 1892, and close on Thursday, June 8th, 1893; but pupils will be received at any time during the session, and for any length of time not less than two months.

"The object" of this State Normal School, established and maintained by Act of the General Assembly, "shall be the preparation of teachers for teaching in the Colored Public Schools of Kentucky."

Admission of Pupils: "Any pupil to gain admission to the privileges of Instruction in the said Normal School shall be at least sixteen years of age, possess good health, give satisfactory evidence of good moral character, and sign a written pledge, to be filed with the Principal, that said applicant will, so far as practical, teach in the Colored Common Schools of Kentucky a period equal to twice the time spent as a pupil in said Normal School, together with such other conditions as the Board may, from time to time, impose. Should any pupil fail to teach the prescribed time in the Colored Common Schools of the State, he or she shall be liable for such tuition as the Board may determine." In addition to the foregoing requirements, every applicant for admission to this school must hold a Teacher's Certificate, a Certificate of Graduation from a Common School, or

must pass an examination, by the Faculty, on the subjects of instruction prescribed for the Common Schools, attaining an average of not less than sixty-five per cent., but on no subject less than fifty per cent.

As the constant office of this State Normal School is to prepare teachers for teaching in the Colored Public Schools of Kentucky, to impart such instruction as will enable them to secure State Certificates and State Diplomas, and to so train in the Industrial pursuits that they may earn a livelihood as skilled laborers, special instruction will be given all promising applicants who may have failed on the first examination, to enter the Normal School Proper.

For any other information concerning the School, address at Frankfort, the President, J. H. Jackson, to whom applicants for admission will promptly report.
